IAPMO Standards Council Issues TIA UPC 002-21

Ontario, Calif. (March 17, 2021) – The IAPMO Standards Council on March 11 issued one tentative interim amendment (TIA) affecting the 2021 edition of the *Uniform Plumbing Code (UPC®)*. TIA UPC 002-21 updated text in UPC Table 1701.1 pertaining to the ASSE 1055 standard edition and updates the title designation in Section 603.5.21.

The TIA was balloted through the Plumbing Technical Committee in accordance with the Regulations Governing Committee Projects to determine if there existed the necessary three-fourths majority support on technical merit and emergency nature to establish the recommendation for issuance.

In determining whether or not to issue a TIA, the Standards Council looks to the Technical Committee letter ballot for a recommendation of support. Upon a full review and consideration of all the information available to it, the Council agreed with the substantiation submitted by the proponent and thus voted to accept and issue TIA UPC 002-21.

To examine TIA UPC 002-21 in its entirety, please direct your Web browser to:
<https://www.iapmo.org/media/25505/2021-upc-tia-002-21-issued.pdf>

TIA's are proposals based on the determination of an emergency nature requiring prompt action to amend code that contains an error or omission that was overlooked during the regular code development process, contains a conflict within the document or with another IAPMO document, or to correct a hazard, promote an advancement in safeguarding the public or provide an opportunity to correct an adverse impact on a product or method of installation.

For any questions you may contact Enrique Gonzalez at enrique.gonzalez@iapmo.org.
